

## Dockside loading hopper & structures – UNACEM Cement – Lima, PERU

**UNACEM** (Unión Andina de Cementos) is a manufacturer of cement, clinker and pre-mixed concrete. This company was created in 2012 by the merger of **Cementos Lima S.A.A.** and **Cemento Andino S.A.** to create Peru's largest cement producer. **UNACEM** owns 2 plants located in Lima and Junin, whose capacity is 6.7 Million tons of clinker and 7.6 Million tons of cement.

**UNACEM** is also active through her subsidiaries in Chile, Colombia, Ecuador and USA.

For more info about **UNACEM** : [www.unacem.com.pe](http://www.unacem.com.pe)

This is the loading hopper in the Port of Lima where cement is loaded into bulk carriers. In January 2021 and thanks to the technical advices & support of **ZINGAPERU**, **UNACEM** decided to strip off the old weared paint system and replace it with **ZINGA** as stand-alone system.
