

High Lighting masts – Jeddah Islamic Port – SAUDI ARABIA

In 2017 the **Jeddah Islamic Port Authority** decided to completely refurbish their 38-meter-high lighting masts which were severely corroded. The blasting and painting works were realized by the **ZINGAMETALL** Distributor of Saudi Arabia, **B.P.C. (Building Products Company)**.

System:

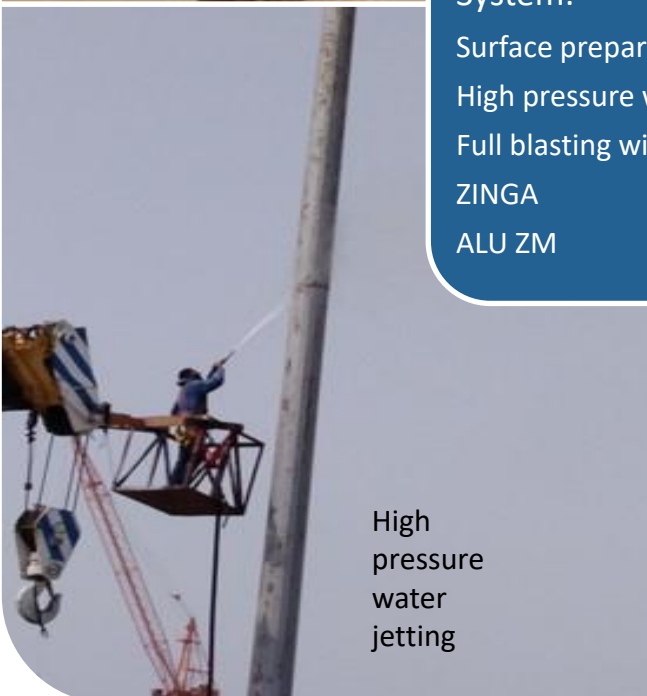

Surface preparation:

High pressure water jetting

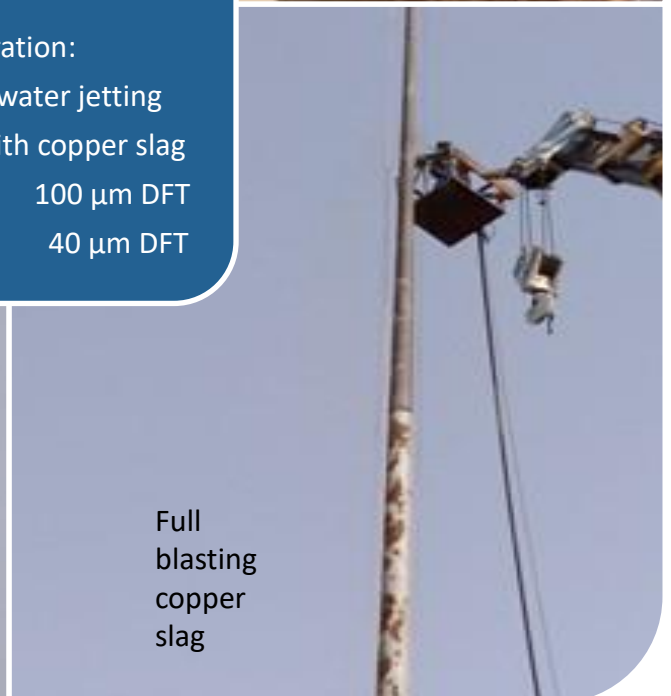

Full blasting with copper slag

ZINGA 100 µm DFT

ALU ZM 40 µm DFT

High pressure water jetting

Full blasting copper slag
