

HANGZHOU BAY BRIDGE – CHINA

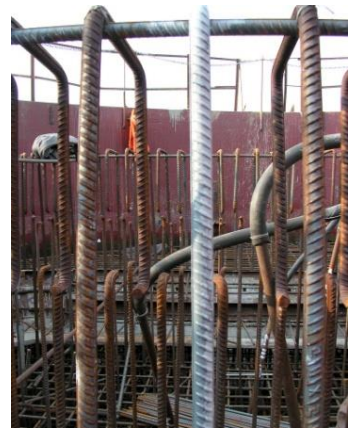

The Hangzhou Bay Bridge is located in the Bay of Hangzhou and connects the harbours of Shanghai and Ningbo.

In May 2005, **ZINGA** was applied on the rebars used for this project.

A supplementary extension to the project (emergency platform) prescribes **ZINGA** on the entire construction.

Brush application of ZINGA

Rebars protected with ZINGA

System:
Zinga 1 x 60 µm DFT
