

## FLOORS – PHYTON BIOTECH GMBH – GERMANY

In 2007 the floors of the production hall were repaired using **ZINGA** as first coat to protect the checkered metal floors against corrosion.

In total 210m<sup>2</sup> were treated.

'Williams Advanced Materials' applied the system.

Before

After

### System:

SA 2,5 and Rz 50-70µm

ZINGA 1 x 60 µm DFT

ZINGALUFER 1 x 80 µm DFT

PU Finish 1 x 80µm DFT
