SHELL TANKS - MOROCCO

Since 2006, 4 huge storage tanks for hydrocarbon products that are property of **SHELL** have been repaired using a system with **ZINGA**.

The biggest of these storage tanks measured 16 meters in height and 20 meters in diameter and has been repaired in November 2007. This storage tank (together with another one that was protected in August 2006) is in Mohammedia. In October 2009, a storage tank was Zinganised in Agadir and in March 2010 a storage tank was treated in Tan-Tan.

This repeated use of the system based on **ZINGA** proves the confidence of the client (even in marine environments).

System:

Surface preparation:

Blasting to SA 2,5 and Rz 50-70μm

 $\begin{array}{lll} \hbox{ZINGA} & \hbox{1 x 60 } \mu m \ \hbox{DFT} \\ \hbox{ZINGALUFER} & \hbox{1 x 80 } \mu m \ \hbox{DFT} \\ \hbox{Local PU topcoat} & \hbox{1 x 40 } \mu m \ \hbox{DFT} \\ \end{array}$

Certificate of reference (dd. 10 July 2018)

Fait à Casablanca, le 10 juillet 2018

Undersigned, VIVO ENERGY MAROC, confirm their satisfaction about the use of the duplex system (ZINGA + Zingalufer, formerly known as Alufer N) as a primer paint to cover the outside of our metallic supply tanks. This system has been in use since 2006 on the storage tanks of Mohammedia, Agadir and Tan-Tan of Vivo Energy Morocco.

This certificate is issued to the party concerned at his request to serve and assert who is entitled.
