

SOUTHERN PROVINCE CEMENT CY JEDDAH PORTS AUTHORITY – SAUDI ARABIA

In 2011, **ZINGA** was used to protect several structures of the **Jeddah Ports Authority**.

The customer, **Southern Province Cement Co**, selected **ZINGA** as a protection against corrosion because of its cost efficiency on the long term.

In total 4000 m² of steel were protected with **ZINGA** as an efficient manner to prevent corrosion.

Southern Province Cement Company was established in 1978 to serve the far South Western region of the Kingdom of Saudi Arabia. The company is engaged in the manufacturing and marketing of cement and cement-related products.

System:

Surface preparation:

Grit blasting (copper slag)

SA 2,5 and Rz 60-70 µm
