

SIGN POSTS – HIGHWAY DEPARTMENT – THAILAND

In the period 2008-2009, the **Highway Department of Thailand** decided that 54 overhead signs in the region of Pathum Thani had to be restored. **ALU ZM** was chosen to give the signs their former aspect. The application was touch dry after 10 to 15 minutes.

System:

Surface preparation: ST2
For very rusty areas: ST3

ALU ZM 2 x 60 µm
(by brush and roller)
